

Project Assessment Survey for Conservation Partners  
Common Questions for Regional Corps

**Leader Section**

Hitch Location: \_\_\_\_\_ Hitch Dates: \_\_\_\_\_ Name: \_\_\_\_\_

1) Where did the work take place?

- Public Trails
- Public Waterways
- Parks and Public Land

2a) Did the hitch involve any of the following?

- Removing Invasive Species
- Establishing Native Species
- Building Riparian buffers
- Natural Debris Removal
- New Trail Construction
- Trail Maintenance or Blazing
- None of the above, please specify:

2b) If yes, how much did you accomplish this hitch: \_\_\_\_\_ acres or miles (circle one)

3) Please provide a brief overview of this hitches scope of work or service objectives:

## Partner Section

---

1) Based on your professional expertise, did the project completed by the SCA crew increase sustainability of the service area by...

- ...reducing erosion on conservation lands or water bodies?
  - ...increasing public safe access to conservation lands or water bodies? For example: creation of a new trail, improving the tread or corridor of an existing trail, removal of an unsafe trail structure, improving accessibility to disabled or underserved citizens.
  - ...decreasing the impact of visitors to conservation lands or water bodies by repairing intermittent or year round water bodies, wet ground, or sensitive habitat?
  - ...improving native habitat by removing invasive species, planting native species, or by other means?
  - ...improving the infrastructure of your property leading to increased lifespan of trails, buildings, signage, or open spaces?
  - ...providing updated information on conservation lands or water bodies that will aid in effective recreation and conservation management? For example: campsite status, invasive species location, wildlife monitoring.
  - ...increasing protection of conservation lands by protecting from wildfires? For example: hazardous fuels reduction, fireline construction, and prescribed burning.
  - ...improving conservation land or water bodies in a way that is not listed here? If so, how?
- 

2) What percentage of the work that you expected to be accomplished was actually accomplished?

- Less than 70%
- 70%-79%
- 80%-89%
- 90%-99%
- 100%

3a) SCA AmeriCorps Members reported completing \_\_\_\_\_. Is this concurrent with your project reporting? (answer from 2b)

- Yes
- No: How much? \_\_\_\_\_

3b) Of the amount of work verified by question 3a, what percentage is more sustainable based on one or more of the criteria in question 1 above?

- 0% -24%
- 25%-49%
- 50%-74%
- 75%-99%
- 100%

4) How would you characterize the nature of the work accomplished this hitch?

- Critical and timely projects
- A mix, but mainly critical projects
- Timely, but not prioritized projects
- A mix, but mainly general maintenance
- General maintenance or regular annual projects

5) Would the work have been completed without this SCA hitch?

- Yes
- No

6) Does the work accomplished by SCA participants contribute to a land management or resource protection plan?

- Yes
- No

6a) If yes, how does it contribute?

---
