### Goal Setting

If you did not agree with any of the statements on the previous page, these are the areas where we encourage you to work with your member to set SMART goals for personal and professional development (if you haven't already).

We also expect SMART goal setting with all members, even if they are currently excelling at the tasks that they have been assigned.

- Specific: Focused on exactly what will be accomplished
- Measurable: Know how success will be measured
- Attainable: Be realistic about what's possible given time and resources
- Results-Focused: Define what a successful result will look like
- Time-Focused: Give a clear deadline for completing the goal

Example of a non-SMART goal: *To learn more about conservation.*

Example of this goal transformed into a SMART goal: *By the 6th week of the internship (Time-Focused) will be able to explain two conservation techniques (Measurable and Results-focused) used by staff at the site (Specific and Attainable).*

3) Do you plan to set goals with this member? (If you have already set goals with this member, please select "yes".)

€ Yes

€ No

€ If no, please explain: \_\_\_\_\_
